

November 2023

Ashraya

Students

Currently, 110 children are associated with our educational initiatives. Of these, 50 children do not go to school. In contrast, 60 children attend school but also get benefit from our centre's supplementary tuition. Our center also plays an important role in helping children who lack formal education opportunities, we are impacting the lives of these 110 children, striving to bridge the educational gap and provide valuable learning opportunities.

Annual function

Last month, Ashraya hosted its annual function, an event brimming with creativity and purpose. The children showcased their talents through various performances, highlighting significant societal issues.

*Performances

Dance for Water Conservation.

Dramatic Representation

Performance on Child Labor.

The annual function was a testament to the children's dedication, creativity, and social consciousness. Their performances not only entertained but also educated and inspired the audience, amplifying awareness about pressing societal issues

Computer classes

Last month, 3 students completed their basic course, in this the month they will get their certificate. There are still 5 students who are learning to work on the docs. And also we are looking for a teacher who can teach advance computer skills.

Stitching centre

Now! 15 women come to our center to learn sewing.

Thank You!
